PROFESSIONAL SUMMARY

MBA Finance student with professional experience in data analysis, quality review, documentation and reporting, alongside hands-on Finance & Treasury internship experience in project finance and financial modeling. Developed an integrated model for hyperscale data center infrastructure and evaluated projected cash flows, capital and operating costs, financing assumptions and investment returns using NPV, WACC, PIRR, EIRR, EBITDA and terminal value. Brings strong analytical discipline, market research exposure, MS Excel proficiency and a detail-oriented approach to financial analysis.

VALUATION & ANALYTICAL SKILLS

Financial Modeling & Valuation: Integrated financial modeling | DCF concepts: projected cash flows, NPV, WACC and terminal value | EBITDA analysis | Investment appraisal | PIRR / EIRR
Research & Business Analysis: Industry and competitor research | Market analysis | Financial statement analysis | Revenue, CAPEX and OPEX analysis | Assumption and sensitivity analysis
Reporting & Tools: MS Excel | PowerPoint | Word | Financial analysis and reporting | Data validation and quality control | Documentation | Analytical problem-solving | Business communication

RELEVANT FINANCE EXPERIENCE

AdaniConnex Private Limited | Finance & Treasury Intern | May 2026 - Jul 2026
Project: Financial Modeling & Project Finance Evaluation - Hyperscale Data Center Infrastructure
- Developed an integrated project finance model linking revenue assumptions, CAPEX, OPEX, financing, taxation and projected cash flows.
- Applied discounted-cash-flow and project valuation concepts—including NPV, WACC and terminal value—alongside PIRR, EIRR and EBITDA metrics to evaluate project returns.
- Reviewed operating and financing assumptions to understand their effect on cash flows and overall project performance.
- Prepared structured financial analysis and presented project findings to senior management.

ADDITIONAL PROFESSIONAL EXPERIENCE

Real Team Systems Pvt. Ltd. | Editor Analyst | March 2023 - June 2025
- Processed and reviewed structured and unstructured business data with 99% accuracy while meeting time-sensitive delivery requirements.
- Performed data validation, quality-control reviews and discrepancy checks to maintain reporting accuracy and compliance with internal standards.
- Prepared clear documentation while handling confidential information and maintaining consistent quality across deliverables.

MARKET RESEARCH PROJECT

Apar Industries Ltd. | Corporate Live Project (CMAPS) | Dec 2025 - Jan 2026
- Analyzed market and business data to assess retail penetration across Haryana and identify market opportunities.
- Conducted competitive and channel-level analysis of demand, distribution gaps and market trends; synthesized findings into structured recommendations.
